DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th December 1913, based on the Indian Daily Weather Reports of the period.

1. Weather was feebly unsettled in north-west India owing to the advance into that area from Persia of two disturbances of the cold weather type; and light to moderate precipitation occurred in Baluchistan, Sind and the western half of Rajputana while there were a few light falls in Kashmir, the Punjab, and the hill districts of the United Provinces.

A stationary depression lay over Ceylon during the week and was the cause of moderate to heavy rain in the south of the Peninsula.

Several depressions of extra-Indian origin have been recorded in the north during the past month, and it appears that winter conditions are setting in earlier than usual in northern India.

2. *Burma*.—Except for a light fall of rain at Victoria Point on the 27th dry weather prevailed throughout the week.

North-east India, including Orissa.—The only rainfall in the division consisted of two light falls at Cox's Bazar in the latter part of the week.

The United Provinces, Central India and the Central Provinces.—No rain fell beyond light showers at Chakrata and Mussooree on the 30th.

North-west India.—Local precipitation was recorded in Baluchistan on the first three days of the week and nearly general precipitation on the 2nd. In Sind there was local rain on the 2nd and nearly general rain on the 3rd. Several showers occurred in Rajputana but over the remainder of the division only scattered falls were reported.

The Peninsula.—Rainfall occurred each day in the south-east of the division and on the 3rd extended into Malabar. There were local falls in the Madras Deccan towards the end of the week.

3. The chief daily amounts were as follows:—

November 27th.	Negapatam 3.20" and Pamban 3.82".
„ 28th.	Pamban 3.10" and Negapatam 5.15".
„ 29th.	Quetta 0.37", Montgomery 0.23", Cuddalore 2.75", Madras 2.51" and Negapatam 2.36".
„ 30th.	Sonamarg 0.75", Kotah 0.38", Madras 2.58" and Negapatam 2.00".
December 1st.	Trivandrum 3.52" and Tinnevely 2.90".
„ 2nd.	Quetta 0.32", Chaman 0.45", Kalat 0.62", Robat 0.60", Jacobabad 0.75", Coimbatore 2.36", Madras 1.64", Cuddapah 0.96" and Nellore 3.17".
„ 3rd.	Jacobabad 0.55", Bikaner 0.53", Udaipur 0.33", Calicut 1.06", Negapatam 6.05", Cuddalore 4.69" and Madras 3.71".

4. The week's rainfall was more than 20 per cent. in excess in the Punjab Southwest, Kashmir, Baluchistan, Sind, Rajputana and the whole of Madras: it was 20 per cent. or more in defect in the Bay Islands, Burma, Assam, Orissa, the North-West Frontier Province, Central India West and Mysore, but in all these areas with the exception of the Bay Islands little or no rain is received even under normal conditions.

As a new rainfall period begins with this week, the departures from normal of the seasonal rainfall are the same as those of the week.

Season and Crop Prospects for the week ending Saturday, 29th November 1913.

Burma.—During the week there was practically no rain in Lower Burma. In Upper Burma the rainfall was slight and irregularly distributed. Agricultural operations are progressing normally. Standing crops are generally in good condition. Pasturage is sufficient and cattle are healthy but slight outbreaks of disease are reported from a few districts. Price of unhusked rice is slightly above normal.

Assam.—During the week light showers fell in some parts of the province. The sowing of mustard is nearly finished. Harvesting of winter rice and pressing of sugarcane are in progress. The sowing of spring rice continues in Sylhet. The tea season has practically closed in Cachar and Nowgong. The outturn is on the whole good. Prospects of transplanted winter rice are fair. Some damage to crops by hail storms is reported from the western parts of the Brahmaputra Valley and Manipur. The average price of common rice is nearly the same as it was last week. Cattle disease is reported from five districts. Fodder is insufficient in parts of Sylhet, Kamrup and Darrang.

Bengal.—During the week no rain fell throughout the Province except some slight showers in parts of Dinajpur, Darjeeling and Chittagong. The sowing of spring crops continues. Prospects so far are good. Harvesting of winter rice is in rapid progress and the outturn is reported to be good. The condition of the sugarcane crop is fairly good. Cattle disease is reported from eight districts. The average price of common rice has fallen by about 1·3 per cent. as compared with that of the previous week. Agricultural loans were issued in Bankura, Midnapore and Howrah and gratuitous relief was given in Midnapore.

Bihar and Orissa.—There was no rain during the week and the weather was seasonable. Harvesting of winter rice is going on and pressing of sugarcane has commenced. Sowing of spring crops still continues in Bihar. The standing crops are doing well. The average price of common rice has remained almost stationary as compared with that of the preceding week. The supply of fodder is insufficient in the flood affected areas of Patna. Cattle disease is reported from ten districts. Prospects of standing crops in the Feudatory States of Orissa are good.

United Provinces.—The week was rainless. More rain is urgently needed in all but the south eastern districts. Standing crops are suffering from drought except in the east of the Provinces, while locusts and white ants have damaged the crops in the Bijnor, Budaun, Hardoi and Fatehpur districts. *Takari* advances are being given for *Kachcha* wells, ropes, bullocks and seed. Irrigation and preparation of land for sugarcane and for poppy continue. Sowing of poppy is in progress while that of spring crops is almost complete. Cattle disease is still reported from some districts of the Provinces. Scarcity of fodder is increasing but Government hay is being distributed freely for agricultural stock which is in fairly good condition. Water is running short in the Bundelkhand and Unao districts. Prices are fluctuating with an upward tendency.

Punjab.—The slight rain which fell in parts of the Western and Central Punjab was insufficient. More is generally wanted for unirrigated sowings of spring crops which are restricted except in the west and north-west. Germination is generally satisfactory but unirrigated spring crops are in places suffering from drought. Picking of cotton and pressing of sugarcane continue. Harvesting of other autumn crops has been completed except in the west and north-west. Outturns are generally average to good except in the south-east where they are below average in unirrigated lands. Standing sugarcane and cotton crops are average to good except in the south-east where sugarcane on unirrigated land is in poor condition. Cattle are generally healthy but fodder is getting scarce in the south-east. The price of wheat is generally close to normal and that of other grains a little above normal.

North-West Frontier Province.—During the week slight showers fell in Hazara, Peshawar, Kohat and Bannu. The weather was cold and at times cloudy. The condition of standing crops is average. Pressing of sugarcane and harvesting of autumn crops are in progress and the outturn is expected to be normal. The sowings of spring crops are proceeding. Cattle are in good condition. The supply of fodder and water is generally sufficient. Prices of food grains are high and tending to rise in Bannu. Prices of wheat are also rising in Peshawar.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 12 to 21 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

Kashmir.—There was slight rain during the week. The sowings of spring crops are in progress. Cattle disease is reported in some villages of the Anantnag and Baramula districts. Prices are normal. Fodder and water are sufficient.

Rajputana.—During the week slight showers of rain fell in Jaisalmer. The weather was generally clear and cool. Harvesting of autumn crops is nearly completed. The estimated outturn is unfavourable in the Eastern States of Central Rajputana including Ajmer-Merwara where sowings of spring crops are also restricted and fodder is insufficient. Cattle are doing well. The supply of water is generally sufficient. Prices are high in most places and stationary. Cattle emigration continues in Ajmer-Merwara and Marwar, Jaipur, Kishengarh, Bharatpur and Karauli. Prospects are causing anxiety in Ajmer-Merwara. Test works have been started in Merwara and forty-six persons are employed on them.

Central India.—During the week the rainfall was 14 cents in Barwani. Elsewhere no rain fell. The weather was clear and cool. More rain is badly wanted in parts of Gwalior, Bhopal, Baghelkhand, Bundelkhand and in Mehidpur, the Rampura Bhanpura and the Alampur pergana of Indore. Harvesting of autumn crops is completed in Gwalior and is in progress elsewhere. The sowing of spring crops is completed in Indore, Bhopal and parts of Baghelkhand and Malwa and is in progress elsewhere. Operations have been stopped in parts of Gwalior, Baghelkhand, Bundelkhand and the Alampur pergana of Indore for want of rain. Standing crops are bad in parts of Gwalior and the Alampur pergana of Indore, indifferent in Baghelkhand and fair in Bhopal. Autumn crops are withering in Bundelkhand. The crops have been damaged for want of rain in the Alampur pergana of Indore, Bhopal, Baghelkhand and Bundelkhand. Cattle disease prevails in parts of Gwalior, Indore, Baghelkhand and Bundelkhand. The supply of fodder is indifferent in Baghelkhand, scarce in Gwalior, the Alampur pergana of Indore and in Bundelkhand. Prices are rising in Gwalior, Bhopal and parts of Bundelkhand and are above normal in Baghelkhand and steady elsewhere.

Central Provinces.—The weather continues to be clear and occasionally cloudy. The nights and mornings are cold. Spring crops are deteriorating in some places for want of moisture. Harvesting and threshing of autumn crops and picking of cotton are well advanced. Fodder and water are reported to be insufficient in parts of five districts. Agricultural stock is in good condition. Variations in prices are unimportant but generally indicate an upward tendency.

Feudatory States. Only Jashpur had eighty-three cents of rain. Reaping of autumn crops continues. Wheat in Sarangarh and wheat and gram in Jashpur fell by four seers per rupee. Rice sells cheaper in Sarangarh and dearer in Udaipur by two seers per rupee.

Bombay.—During the week rain fell in parts of the Thar and Parkar, Kaira, Ratnagiri, Satara, Bijapur, Savantvadi and Kolhapur Districts. Standing crops have been slightly damaged by rats in Ahmedabad, Kaira, Palampur, and Rewa Kantha and by grasshoppers in parts of Broach and Surat. They are withering in parts of Ahmednagar, Poona and Sholapur and are good elsewhere. Harvesting and threshing of autumn crops generally continue. The sowing of spring crops is progressing except in the Konkan, the Deccan and the Karnatak. Cotton picking continues in parts of Thar and Parkar, Nawabshah, the Deccan, Kathiawar and Baroda. The supply of fodder is sufficient except in parts of Poona, Sholapur, Satara and Bijapur. Agricultural stock is sufficient except in parts of Ahmednagar and Poona and is in good condition except in Sholapur. Drinking water is adequate except in parts of Sholapur and Satara and water for irrigation is deficient in parts of Ahmednagar, Sholapur, Satara and Dharwar. Prices are high but generally steady. Stocks of grain are sufficient.

Hyderabad.—During the week light isolated showers fell in a few districts. Autumn cotton is being picked. The harvesting of other autumn crops has been almost completed. The early rice crop is generally fair to good but has suffered in parts of the Gulbarga, Mahbubnagar, Warangal and Karimnagar districts and in a few other isolated parts. The spring crops are being sown and weeded. The crop is fair to good except in parts of the Warangal district. The wheat crop has been damaged by insects in parts of the Rajura taluka of the Adilabad district. Lands are being prepared for late rice and sowings have commenced. Scarcity of fodder prevails in four and water scarcity in eleven districts. Cattle disease prevails in one taluka. Variations in prices of grains are insignificant. The highest price in districts is eight seers per rupee in Mahbubnagar and Karimnagar and the lowest, eighteen in Bidar.

Mysore.—There was no rainfall during the week. The price of rice has slightly risen in Hassan and fallen in Chitaldroog and that of *ragi* has slightly risen in Kadur. The markets are well supplied. Standing crops are in fair condition except in parts of the state where they are withering but want of rain is generally felt. Harvesting continues with outturn poor to fair. Cattle are generally healthy and water and fodder are available.

Coorg.—Agricultural prospects are good. Picking of cardamoms is nearly completed and that of coffee continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall during the week was very heavy in Tanjore, heavy in Ramnad, fair to good in Trichinopoly, Travancore, the Karnatak except Nellore and in the south except Tanjore and nil or light elsewhere. Standing crops are fair to good but require rain in some places. Harvesting of dry crops and paddy is proceeding with outturn fair to normal. Generally sowings of paddy are ending and those of dry crops are proceeding normally for most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in many places. Fodder is insufficient in some places. Prices are stationary.

3. All spirit that is not manufactured in a patent still must be distilled twice before issue. Reduction with water to the prescribed issue strengths in the distillery or the warehouses must be made under the following conditions :—

(1) Unless the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces is satisfied and certifies to that effect in writing that the water intended for use in reducing is obtained from a source uncontaminated and free from the likelihood of contamination, such water, prior to use, shall be raised to a temperature of not less than 212° F. and shall be kept at that temperature for at least ten minutes.

If this contract is not renewed, the Contractor shall, if so required by the Commissioner, make over the said plant on the expiration of the contract to the next Contractor at a reasonable valuation to be determined by the Commissioner, and the Contractor shall, if not so required, have the option, to be declared not later than three months before the expiration of the contract, of making over the said plant on the expiration of the contract to Government at a reasonable valuation to be fixed by the Commissioner after considering any representation in the matter which the Contractor may desire to submit, but the Contractor shall not have such option in respect of any portion of the said plant which is in the opinion of the Commissioner unsuitable or unserviceable.

5. Every licensed vendor within the area to which the contract relates will be required to obtain his supplies of country spirit from the Contractor subject, however, to the proviso that an incoming vendor will purchase from the outgoing vendor at current prices (to be determined, in case of dispute, by the Collector) such stock of country spirit as may remain unsold at the

shop on the night of the 31st March 1915 or on the expiry or cancellation of the license of the outgoing vendor.

The Contractor will be required, at his own expense, to maintain the distillery and warehouse plant in sound working order and in good condition to the satisfaction of the Assistant Commissioner of Excise, but he will not have to bear any charges on account of the cost of repairs to the buildings which will be carried out by Government agency and at the expense of Government.

The tender must reach the Commissioner of Customs, Salt, Opium and Abkari at the Town Custom House, Bombay, before 12 o'clock noon on Monday, the 16th February 1914, after which no tender will be received.

13. Government reserve power to accept such tender as they may deem best in the public interest and to reject all or any of these received without assigning any reasons.

14. The decision of Government will be communicated to the tenderers concerned, and the deposits of the unsuccessful tenderers will be returned to them.

17. As soon as the agreements have been executed the Commissioner will issue a license to the successful tenderer assigning to him the exclusive privilege of manufacturing and supplying country spirit within the area to which the contract relates.

WHEREAS the Rulers of the territories of Mysore have, since the restoration to them of the said territories in 1881, evinced their zeal and attachment to the Crown, and whereas the administration of the Mysore State has been conducted during the past thirty-two years to the satisfaction of the British Government, and whereas, in order to mark the high esteem in which His Highness the Maharaja is held by the British Government, the Governor-General of India in Council is desirous of making certain changes in the conditions laid down at the time of such restoration, the following Articles are hereby agreed upon :—

ARTICLE 1.

The Maharaja Sri Krishnaraja Wadiyar Bahadur and those who succeed him in manner hereinafter provided shall be entitled to hold possession of, and administer, the said territories perpetually, subject to the conditions hereinafter prescribed.

ARTICLE 2.

The succession to the administration of the said territories shall devolve upon the lineal descendants of the said Maharaja Sri Krishnaraja Wadiyar Bahadur, whether by blood or adoption, according to the rules and usages of his family, except in case of disqualification through manifest unfitness to rule :

Provided that no succession shall be valid until it has been recognised by the Governor-General in Council.

In the event of a failure of lineal descendants, by blood and adoption, of the said Maharaja Sri Krishnaraja Wadiyar Bahadur, it shall be within the discretion of the Governor-General in Council to select as a successor any member of any collateral branch of the family whom he thinks fit.

ARTICLE 3.

The Maharaja Sri Krishnaraja Wadiyar Bahadur and his successors (hereinafter called the Maharaja of Mysore) shall at all times remain faithful in allegiance and subordination to His Imperial Majesty the King Emperor of India, His Heirs, and Successors, and perform all the duties which in virtue of such allegiance and subordination may be demanded of them.

ARTICLE 4.

ARTICLE 14.

If the British Government at any time desires to construct or work, by itself or otherwise, a railway in the said territories, the Maharaja of Mysore shall grant such lands as may be required for that purpose, and shall transfer to the Governor-General in Council plenary jurisdiction within such land ; and no duty or tax whatever shall be levied on through traffic carried by such railway which may not break bulk in the said territories.

ARTICLE 15.

The Maharaja of Mysore shall cause to be arrested and surrendered to the proper officers of the British Government any person within the said territories accused of having committed an offence in British India, for whose arrest and surrender a demand may be made by the British Resident in Mysore, or some other officer authorised by him in this behalf ; and he shall afford every assistance for the trial of such persons by causing the attendance of witnesses required, and by such other means as may be necessary.

All laws and rules having the force of law, which existed at the time of the restoration of the said territories in 1881 and are shewn in the schedule hereto annexed, shall, in so far as they are in force at the date of this Treaty, be maintained and efficiently administered, and, except with the previous consent of the Governor-General in Council, the Maharaja of Mysore shall not repeal or modify such laws, or pass any laws or rules inconsistent therewith.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Delhi, the 12th December 1913.

No. 71.—The Governor General has been pleased, under Rule 23 of the Rules for the conduct of the Legislative Business of the Council of the Governor General, to order the publication in the Gazette of India and in the local gazettes in English of the following Bill, together with a Statement of Objects and Reasons relating thereto, and the Bill and Statement of Objects and Reasons are accordingly hereby published for general information.

No. 13 of 1913.

A Bill further to amend the Negotiable Instruments Act, 1881.

WHEREAS it is expedient further to amend the Negotiable Instruments Act, 1881, so as to remove doubts as to the validity of the making and endorsing of negotiable instruments in certain forms; It is hereby enacted as follows:—

1. This Act may be called the Negotiable Instruments (Amendment) Act, 1913.

2. In section 13 of the Negotiable Instruments Act, 1881 (hereinafter called the said Act), after the figures "13" insert the

Amendment of section 13, Act XXVI of 1881.

figures and signs "(1)", and to the same section add the following sub-section, namely:—

"(2) A negotiable instrument may be made payable to two or more payees joint or it may be made payable in the alternative to one of two, or one or some several payees."

3. In section 16 of the said Act, after the figures "16" insert the figure and signs "(1)" and to the same section add the following sub-section, namely:—

"(2) The provisions of this Act relating to a payee shall apply with the necessary modifications to an indorsee."

STATEMENT OF OBJECTS AND REASONS.

It has long been the practice in this country to endorse negotiable instruments, particularly Government promissory notes, in such a way as to make them payable to two or more payees jointly, or in the alternative to one or some of several payees. Doubts have arisen as to the legal validity of such endorsements, and the present Bill is designed to place their validity beyond question. The amending Bill will affect all three forms of negotiable instruments, *viz.*, cheques, promissory notes, and bills of exchange, and will result in a close approximation of the Indian to the English law on the subject.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FORESTS.

**REGULATIONS FOR APPOINTMENT OF PROBATIONERS TO
INDIAN FOREST SERVICE.**

Delhi, the 11th December 1913.

The following Regulations for the selection and training of probationers for the Indian Forest Service are published :—

INDIAN FOREST SERVICE.

Regulations as to the appointment of Probationers, 1914.

1 *Appointments.*—The Secretary of State for India in Council will, in the summer of 1914, make **not less than five appointments** of Probationers for the Indian Forest Service, provided that so many candidates are considered to be in all respects qualified.

In making these appointments, he will act with the advice of a Selection Committee.

2 *Applications for Appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Revenue Department, India Office, Whitehall, London, S.W., and to be returned to him not later than **Wednesday the 1st July 1914.** Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee within three weeks from that date.

3 *Age Limit.*—Candidates must be not less than 19 but under 22 years of age on the 1st January 1914.

NOTE.—For the year 1914 only, candidates who have taken an honours course (or other course specified in paragraph 5) which, under the Regulations of the University, occupies four years, will be subject to the age limits which have hitherto been in force, viz., 19 and 23 on the 1st July of the year in which selection is made.

4 *Nationality, etc.*—Every candidate must be a natural-born subject of His Majesty. He must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he does so, he will forfeit his appointment. He must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5 *Qualifications.*—Candidates must have obtained a degree *with Honours* in some branch of Natural Science* in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.† A degree in Applied Science will not be considered as fulfilling these conditions. Candidates will be required to produce evidence that they have a fair knowledge of either German or French.

Note.—Applications for appointment will be accepted from candidates who on the 1st July 1914 have already sat at an examination for a degree as mentioned above, but have not learned the result of the examination.

* A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of the paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

6. Should there be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination, which would be held in August, will be found in Appendix I.

7. *Medical Examination.*—Selected candidates will be required to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department (see Appendix VI).

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service will not be admitted to the competitive examination mentioned in Regulation 6.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer will be required :—

- (i) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry at one of the Universities named in the margin* ;
- (ii) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council, in such British and Continental localities as may be selected for the purpose ;
- (iii) to have passed an examination in certain special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans, and, if required, an Indian vernacular language ;
- (iv) to have undergone a final competitive examination in Forestry (See Appendix II) ;
- (v) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

* Cambridge, Oxford, or Edinburgh.

The period of probation will in ordinary cases be two years. The Director of Indian Forest Studies will instruct probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges*—The probationers will be required to defray all expenses of lodging, board, tuition, and excursions, while at the University, and on practical instruction in Great Britain and on the Continent, with the exception of fees payable to local forest officers in Great Britain and on the Continent.

10. *Allowances.*—The Secretary of State for India in Council will make payments to each probationer at the rate of 120*l.* annually, not exceeding a total of 240*l.* (besides the fees to local officers mentioned above) These payments will ordinarily be made on the following dates in each year :—

	£
On the 1st December	30
On the 1st March	30
On the 1st June	60

The cases of probationers whose probation does not extend over the full two years will be specially considered.

The grant of the allowances is subject to the following conditions :—

- (a) that the progress of the probationer in his studies is satisfactory ;
- (b) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding 60*l.* in all, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the period of probation.

11. *Conduct*.—Every Probationer will be required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of Probationers.

12. *Appointment and Seniority*.—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, will be appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. Their position in the provincial Forest Lists will be determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies; but in making selections for the post of Conservator, officers joining the service in the same year are reckoned as equal in seniority unless the Secretary of State for India in Council shall for special reasons have directed otherwise in any particular case or cases.

Probationers will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

13. *Articles of Agreement*.—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and must engage his own passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

14. *Passage allowance*.—An allowance on account of passage to India will be paid to each probationer on appointment to the Indian Forest Service, to the amount of 37*l.* 10*s.* for passage to Calcutta, Madras, or Bombay, and 43*l.* for passage to Rangoon.

Note.—The above is the normal rate of passage allowance. In consequence of the surtax of 10 per cent. at present charged by shipping companies in respect of passages to India the above rates of passage allowance have been raised to 41*l.* 5*s.* and 46*l.* 5*s.* respectively. Should this surtax be removed, these rates will be reduced to those given in paragraph 14.

15. *Salary*.—An Assistant Conservator of Forests will draw pay at the rate of Rs. 380 a month (equivalent to 30*l.* a year, when the rupee is at 1*s.* 4*d.*) from the date of his reporting his arrival in India.

16. *Promotion, Leave, Pension, and Provident Fund*.—Promotion, leave and pension will be governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service, the pay of which has been recently improved, will be found in Appendix III; a summary of information regarding Leave is contained in Appendix IV; and regarding Pensions and the Provident Fund in Appendix V.

2. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

3. Furlough on medical certificate may be granted (a) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years; and (b) to an officer who has not rendered three years' continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years in all), as the officer may have furlough "due" to him.

4. The allowances admissible during furlough are :—

- (1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due"—half average salary, subject to certain maximum and minimum limits.

* The officer holding this appointment draws in addition to the pay of his grade a minimum local allowance of Rs. 200 a month.

† These appointments are allotted to the various provinces as follows :—Burma, 65; Madras, 31; Bombay, 27; Central Provinces, 24; United Provinces, 19; Punjab, 12; Bengal, 12; Assam, 13; and Bihar and Orissa, 5; and 4 Imperial Instructors at Dehra Dun.

‡ Until he has passed the prescribed Departmental examinations, an Assistant Conservator is liable to stoppage of increments of pay. On passing the examinations he will resume drawing pay under the time-scale at the rate to which his length of service entitles him.

§ These draw a local allowance of Rs. 150 a month in addition to their grade pay, with the exception of the President, Forest Research Institute and College, in whose case the allowance is at the rate of Rs. 200 a month. Of these 10 appointments, the four posts of Imperial Instructors have been sanctioned for five years from 1912, for the present.

NOTE.—Under the improved scale of salary shown above, no Exchange Compensation Allowance is granted.

- (2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

5. Special Leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

Short Leave.

6. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave may not be granted for a period of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Subsidiary Leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

8. Short Leave is also granted to enable officers to appear at examinations, etc.

9. Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General Rules.

10. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

11. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1s. 6d. to the rupee. Privilege Leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1s. 4d. to the rupee.

APPENDIX V.

(See Note under Appendix IV.)

PENSIONS AND PROVIDENT FUND.

1. An officer of the Indian Forest Service is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the service through ill-health, not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows:—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years, an invalid pension not exceeding the following amounts :—

Years of Completed Service.	Maximum Limit of Pension.
10	Rs. 1,000 a year.
11	1,400 "

15	3,000 "
16	
17	
18	
19	

After a service of not less than 20 years, a retiring pension not exceeding the following amounts :—

Years of Completed Service.	Scale of Pension. Sixtieths of Average Emoluments.	Maximum Limit of Pension.

25 and above		{ 5,000 "

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests or Conservator may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued to pensioners residing in countries where the Indian rupee is not legal tender at the rate of exchange of 1s. 9d. the rupee.

2. A General Provident Fund has also been established on the following basis :—

- The contribution is compulsory up to $6\frac{1}{4}$ per cent. on salaries, with voluntary contributions of not more than a further $6\frac{1}{4}$ per cent. Subscriptions on leave of any kind are optional.
- Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.
- The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.
- Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (a).

APPENDIX VI.

GENERAL PHYSICAL REQUIREMENTS.

[*Note.*—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.]

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without Shoes.	Chest.	
		Girth when expanded.	Range of Expansion.
	Inches.	Inches.	Inches.
19 to 20	62½ and under 65	35	2
	65 " 68	35	2
	68 " 70	35½	2
	70 " 72	36	2
	72 and upwards.	36½	2½
21 and upwards	62½ and under 65	35	2
	65 " 68	35½	2
	68 " 70	36	2
	70 " 72	36½	2½
	72 and upwards.	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. No fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, the posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. Candidates may, not more than two years before they are qualified to compete for an appointment, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(a) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement of the candidate's age.

(b) Candidates must pay their travelling expenses.

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to their appointment.

(d) On the other hand it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit, when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION FOR THE INDIAN FOREST SERVICE.

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 2.5 D, and if with correcting glasses, not exceeding 2.5 D, the acuteness of vision in one eye equals $\frac{6}{6}$, and in the other $\frac{6}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate for service, provided the lens or the combined spherical and cylindrical lenses required to correct the error of refraction do not exceed 2.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other eye $\frac{6}{6}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{6}$, and in the other eye equals $\frac{6}{6}$, with + 4 D or any lower power.

4. Hypermetropic astigmatism does not disqualify a candidate for the service, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{6}$ and of the other $\frac{6}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in the above rules, may exclude a candidate for admission into the service.

6. Squint, or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

GILBERT T. WALKER,
Director General of Observatories.

Dated 11th December 1913.

E. D. MACLAGAN,
Secretary to the Government of India.

Rajputana.—During the week the weather was generally cloudy and rain fell in several districts which has improved the situation in Ajmer and benefited the standing crops in a few other places. More rain is badly needed in the Eastern States and in Central Rajputana where the sowing of spring crops is restricted. Elsewhere the prospects of the spring harvest are fair to good. Cattle are doing well. Fodder is insufficient in the Eastern States and Central Rajputana. The distribution of grass *takavi* is in progress in Merwara. The supply of water is generally sufficient. Prices are high and stationary. The numbers on the test works are as follows :—Merwara 72.

Central India.—During the week the rainfall was general in Bhopal, partial in Baghelkhand and slight in parts of Indore, Bundelkhand and Bhopawar. The weather was clear and cool. More rain is badly wanted in parts of Gwalior, Bhopal, Baghelkhand, Bundelkhand and in Mehidpur, the Rampura Bhanpura district and the Alampur pergana of Indore. Harvesting of autumn crops has been completed in Gwalior and is in progress elsewhere. The sowing of spring crops has been completed in Indore and parts of Baghelkhand and is in progress elsewhere. Operations have been stopped in parts of Gwalior, Baghelkhand, Bundelkhand and the Alampur pergana of Indore for want of rain. Standing crops are bad in parts of Gwalior and the Alampur pergana of Indore, indifferent in Baghelkhand and fair in Bhopal. Autumn crops are withering in Bundelkhand. The crops have been damaged for want of rain in the Alampur pergana of Indore, Baghelkhand and Bundelkhand. Cattle disease prevails in parts of Gwalior, Indore, Bhopal and Baghelkhand. The supply of fodder is bad in parts of Gwalior and insufficient in the Alampur pergana of Indore, Baghelkhand and Bundelkhand. Prices are rising in Gwalior, Bhopal and parts of Bundelkhand, are below normal in Baghelkhand and steady elsewhere.

Central Provinces.—During the week the weather was cloudy and cool. Light to moderate rain fell all over the Provinces nowhere exceeding $2\frac{1}{2}$ inches. Reaping and threshing of autumn crops and picking of cotton continued. The rainfall has considerably improved the condition of the spring crops. The supply of fodder and water is generally adequate except in parts of Jabulpore and the Vindhyan districts. Prices of food grains remained fairly steady or fluctuated slightly.

Pendatory States.—During the week nine States had rain ranging from 15 cents to 2 inches. Harvesting and threshing of autumn crops were in progress. The price of rice fell in Bastar and that of wheat rose in Sarangarh by four seers per rupee.

Bombay.—During the week rain fell in parts of Sind, Ahmedabad, the Panch Mahals, the Deccan, the Karnatak and Kolhapur and was beneficial to standing crops. The crops have been slightly damaged by rats in Ahmedabad and Palanpur, are withering in parts of Ahmednagar, Poona, Sholapur and are good elsewhere. Harvesting and threshing of autumn crops generally continue. The sowing of spring crops is progressing in Sind and in the Native States of Gujarat. Cotton picking continues in parts of Thar and Parkar, Nawabshah, the Deccan, Kathiawar and Baroda. The supply of fodder is sufficient except in parts of Poona, Sholapur and Satara. Agricultural stock is sufficient except in parts of Ahmednagar and Poona, and good except in Sholapur. Drinking water is adequate except in parts of Sholapur and Satara and water for irrigation is sufficient except in Ahmednagar, Sholapur and Satara. Prices are rising in Sind and are steady elsewhere. Stocks of grain are sufficient.

Hyderabad.—During the week the weather was cloudy. There was no change in crop prospects.

Mysore.—During the week the rainfall was very slight in Bangalore, Kolar and Kadur and *nil* elsewhere. The price of rice is rising slightly in Kolar and Chitaldroog and has fallen in Hassan and Kadur. That of *ragi* has risen slightly in Tumkur and Mysore and has fallen in Kadur. Markets are well supplied. Standing crops are in fair condition except in some parts of the State where they are withering but want of rain is generally felt. Harvesting continues with outturn poor to fair. Cattle are generally healthy and water and fodder are available.

Coorg.—Agricultural prospects are good. Picking of coffee continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—During the week the rainfall was good to very heavy in Cuddapah, the Karnatak, Central Travancore, the Nilgiris and in the south except Madura, fair in the Banganapalle State, Madura, Malabar and Cochin and light or *nil* elsewhere. Standing crops are fair to good but require rain in some places. Harvesting of dry crops and paddy is proceeding with outturn fair to normal. Generally sowings of paddy are ending and those of dry crops are proceeding normally for the most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in a few places chiefly in the Deccan and the Circars. The supply of fodder is generally sufficient. Prices show a downward tendency.

The sowing of mustard is nearing completion. The outturn of transplanted winter rice as well as the prospects of mustard are fair. The average price of common rice has fallen slightly. Cattle disease is reported from three districts. Fodder is insufficient in Sylhet and Kamrup.

The average price of common rice remained almost stationary as compared with that of the previous week.

Bihar and Orissa.—During the week light to moderate rain was fairly general over the Province. Harvesting of paddy and pressing of sugarcane are going on. The standing spring crops are doing well. The price of common rice has fallen as compared with that of the previous week. The supply of fodder is sufficient except in the flood-affected areas of Patna. Cattle disease is reported from nine districts. The prospects of standing crops in the Feudatory States of Orissa are good.

United Provinces.—During the week light showers have fallen throughout the Provinces except in the central sub-montane and Almora districts and in the Rampur State. More rain is urgently needed in all but the south-eastern districts. Standing crops are suffering from drought except in the east of the Provinces and white ants have caused damage in the Budaun, Shahjahanpur, Kheri and Fatchpur districts. Germination is generally good. *Takavi* advances are being given for wells, ropes, bullocks and seed. Harvesting of autumn crops and sowing of spring crops are almost complete. Irrigation and sowing of sugarcane and of poppy continue. Cattle disease is still reported from some districts of the Provinces. One test work has been opened at Bara in the Allahabad district and two in Banda and one will be opened in Hamirpur on 12th December 1913. The numbers employed on test works are :—Bara 217 and Banda 369, total 586. Scarcity of fodder is increasing and Government hay is being distributed freely for agricultural stock which is in fairly good condition. Water is running short in the Bundelkhand and Unao districts. Prices are high and fluctuating.

Punjab.—During the week slight rain fell in the south-east of the Province. More rain is generally wanted. Picking of cotton and pressing of sugarcane are in progress with yield average to good except in parts of the south-east where outturn of cotton is below average on unirrigated lands. The sowings of spring crops continue and are normal on irrigated lands but are restricted for want of rain on unirrigated lands (except in the west and north-west). The condition of standing spring crops is generally average to good but crops on unirrigated lands in the south-east are suffering from drought. Harvesting of *toria* has commenced in some districts with average outturn. Cattle are generally healthy but fodder is getting scarce in the south-east. Prices of wheat are generally close to normal and of other grains a little above normal.

North-West Frontier Province.—The week was rainless and the weather cold and at times cloudy. The condition of standing crops is average. Pressing of sugarcane and harvesting of autumn crops are proceeding and the outturn is expected to be normal. The sowings of spring crops continue. The condition of cattle is good. The supply of fodder and water is generally sufficient. Prices of food grains are high and still tending to rise in Bannu tehsil. The price of maize is also rising in Peshawar.

Jammu.—There was no rain during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 12 to 27 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in Rampur tehsil. Fodder is sufficient.

Kashmir.—During the week slight rain fell. The sowing of spring crops is in progress. Cattle disease is abating. Water and fodder are sufficient. Prices are normal.

It is intended that the spirit shall be distributed from the Godhra Distillery and from at Ahmedabad, Anand and Broach, but Government reserve to themselves the right to new warehouses at such other places within the contract area as they may deem suitable.

3. All spirit that is not manufactured in a patent distillery must be distilled twice before issue. Reduction with water to the prescribed issue strengths may be made in a distillery or the warehouses must be made under the following conditions :—

(1) Unless the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces is satisfied and certifies to that effect in writing that the water intended for use in reducing is obtained from a source uncontaminated and free from the likelihood of contamination, such water, prior to use, shall be raised to a temperature of not less than 212° F. and shall be kept at that temperature for at least ten minutes.

(2) No reduction by the addition of water shall be permitted over a greater range than 85 proof degrees.

4. The Contractor will take over the plant in the Central Distillery at Godhra and the warehouses at Ahmedabad, Anand and Broach at a price to be fixed by the Collector and shall pay on or before 1st April 1915 the amount at which the said plant is valued. The approximate value of the plant at Godhra is Rs. 2,19,568. If this contract is not renewed, the Contractor shall, if so required by the Commissioner, make over the said plant on the expiration of the contract to the next Contractor at a reasonable valuation to be determined by the Commissioner and the Contractor shall, if not so required, have the option, to be declared not later than three months before the expiration of the contract, of making over the said plant on the expiration of the contract to Government at a reasonable valuation to be fixed by the Commissioner after considering any representation in the matter which the Contractor may desire to submit, but the Contractor shall not have such option in respect of any portion of the said plant which is in the opinion of the Commissioner unsuitable or unserviceable.

5. Every licensed vendor within the area to which the contract relates will be required to obtain his supplies of country spirit from the Contractor subject, however, to the proviso that an incoming vendor will purchase from the outgoing vendor at current prices (to be determined, in case of dispute, by the Collector) such stock of country spirit as may remain unsold at the

shop on the night of the 31st March 1915 or on the expiry or cancellation of the license of the outgoing vendor.

6. The cost of the establishments maintained for Government purposes at the distillery and warehouses will be defrayed by Government, but the Contractor will have to pay rent for the distillery and for each warehouse placed in his possession as follows : Godhra Distillery Rs. 246, Ahmedabad Bonded Warehouse Rs. 25, Anand Bonded Warehouse Rs. 16, and the Broach Bonded Warehouse Rs. 40 per mensem, but Government reserve to themselves power to raise the rent during the currency of the contract if any material additions or alterations are made in any of these buildings. The Contractor will be required, at his own expense, to maintain the distillery and warehouse plant in sound working order and in good condition to the satisfaction of the Assistant Commissioner of Excise, but he will not have to bear any charges on account of the cost of repairs to the buildings which will be carried out by Government agency and at the expense of Government.

Government are about to erect a new distillery at Khanapur and it is anticipated, though no guarantee can be given in this respect, that the buildings will be ready for the installation of plant in December 1914. Subject to the proviso contained below the Contractor will be required to install, throughout this distillery, new plant designed to produce and deal with wash the original gravity of which will be readily ascertained by means of Bates' Saccharometer. The distilling apparatus shall be of the "continuous" type, producing at one operation a potable spirit of satisfactory quality. Provided that the Contractor will be required to take over such articles of the plant as the present Belgaum and Dharwar Distilleries and of the warehouses at Bijapur, Gadag, Veri and Sirsi at prices to be fixed by the Collectors of the districts concerned, as may, in the opinion of the Commissioner of Customs, Salt, Opium and Abkari be suitable for employment in the new distillery or in the bonded warehouses and he shall pay for such plant on or before the 1st April 1915.

2. The Contractor will manufacture the spirit at the Central Distillery at Khanapur from mhowra flowers, or from molasses, cane juice (shir), unrefined cane sugar (gur) or unrefined Indian sugar (jagri), provided that he may not, without the written permission of the Commissioner in any calendar month, use bases other than mhowra in a greater proportion than 10 per cent. of the whole materials used. Applications must not be made to the India Office in London.

5. Such permission will be granted only to those members of the Indian Civil Service and officers of the Indian Army in civil or political employ who seem likely to be employed, before their active service comes to an end, in situations where a knowledge of Russian may be of advantage to the State, and to no one who will not be able to attend the preliminary examination, and also the final one, or who cannot proceed to Russia for a course of study, and to return to duty in India without exceeding the amount of leave which he may have to his credit or which may be admissible to him in subject to the Leave Rules for the Indian Army. The Government of India reserve to themselves full discretion to grant or withhold permission in any case.

6. Any officer, of not less than three and not more than twelve years' service, who proves his possession of a sufficient elementary knowledge of Russian by obtaining not less than 10 total marks at one of the preliminary examinations held by the Local Commissioners, or passes one of the preliminary examinations held in India, will be permitted to proceed from England to Russia for a course of study of the Russian language.

Note.—The syllabus of the preliminary examination is given in rule 19.

7. After passing the preliminary examination, and receiving permission to proceed to Russia, an officer must start for England within a fortnight from the date of the India Office letter conveying such permission unless specially authorised to defer his departure. He must on no account start for Russia until he has received a letter of instructions on the subject from the India Office. No officer on leave on medical certificate will be permitted to proceed to Russia under these rules unless reported fit to do so by the India Office Medical Board.

8. On starting for Russia he may be granted an advance of pay not exceeding 35 days' furlough pay and also not exceeding £100. Such advance will only be granted to an officer who draws his furlough pay from the India Office, and will be recovered in instalments spread over eight months after his arrival in Russia.

9. On his arrival in Russia, he shall report to the India Office his address and the date of his crossing the Russian frontier. Any subsequent change of his address shall likewise be reported.

10. Every officer permitted to go to Russia under these regulations is required to spend ten months in that country and to present himself for final examination at the first examination held after the end of these ten months.

11. Two months before his final examination, he shall notify to the India Office the address in England to which his order for examination should be sent by the Civil Service Commissioners.

12. On his return to England he shall report to the India Office in writing his arrival and the date of his crossing the Russian frontier on his return. If he left India on medical certificate, he shall apply for permission to appear before the Medical Board at the India Office. He shall not leave Russia, either temporarily or permanently, earlier than fourteen days before the final examination, without obtaining leave of absence for a definite period from the Under Secretary of State for India.

who seeks at the final examination to gain an Interpreter's qualification in qualifying to be a 1st class Interpreter shall receive a gratuity of £80 and if he qualifies as a 2nd class Interpreter under the same conditions he shall receive a gratuity of £40. He will also be granted travelling expenses* from London to and from St. Petersburg or Moscow, as the case may be. The gratuity shall be paid only in cases where there has been the full term of residence in Russia for the purpose of study. He will also be granted a free passage from England to India and granted leave on private affairs before returning to India (see paragraph 15) and will be treated with retrospective effect † as an entitled passenger to England or to Russia when first proceeding there. No grant on account of travelling expenses shall be made to an officer who fails to qualify to be an Interpreter, but he may earn the gratuity, travelling allowance, and passages (or payments in lieu) if he succeeds at any subsequent examination in qualifying to be an Interpreter, provided he has not more than 12 years' service at the time of re-examination.

14. An officer may re-qualify as a 1st class Interpreter after an interval of five years by passing the oral part of the examination together with an *ex tempore* translation from and into the language. The grant for re-qualification as a first class Interpreter will be one quarter of the gratuity for the original qualification. ‡

15. Whether successful or not at the final examination, he shall rejoin in India within two months from the date on which it began, unless his leave or furlough extends beyond that period. If, however, his leave has been granted under medical certificate, it will be necessary for him as usual to obtain a certificate that he is in a fit state of health to return to his duty.

16. A member of the Indian Civil Service or a Military Officer subject to the Civil Leave Rules shall be entitled to the same Indian duty for promotion and pension, but not as service for furlough, for the period of ten months spent in Russia. The whole time passed in the study and until the date of his return to duty in India will be treated as the furlough taken, and he will be entitled to the usual furlough.

17. A Military officer in civil uniform subject to the Leave Rules for the Indian Army, shall be entitled to the same Indian duty for promotion and

* Free first class railway and steamer accommodation and a travelling allowance, while travelling by rail or by steamer when the messing is not included in the cost of the ticket, at the rate of 15s. per night and 3s. 6d. for the last day. When the messing is included in the cost of the sea passage, this allowance is not admissible, but 3s. 6d. is allowed for the journey to the port of embarkation if the distance exceeds 10 miles, and 6s. if the journey necessarily occupies over 10 hours.

† i. e., (1) If he came to England from India at his own expense, he will receive, as passage allowance at the authorized rate in respect of his voyage to England, and will be provided with a passage to India by the India Office; or, if he took a return ticket on leaving India, he may claim the amount paid for it.

(2) If he came to England from India as a non-entitled passenger on a transport, he will receive a refund of his messing charges and an entitled passage to India.

(3) If he went from India direct to Russia, he will receive a single fare at the British India Steam Navigation Company's rate from the port of embarkation to Port Said and a sum of £30 or £32 in respect of his travelling expenses from that port to Moscow or St. Petersburg, as the case may be, travelling expenses from Moscow or St. Petersburg to London as in the above footnote and an entitled passage from England to India.

In any of the three cases he will be entitled to receive, after returning to India, his travelling expenses from his station to the port of embarkation before starting for England.

‡ Note.—The provisions of this rule do not apply to officers who qualified as interpreters under previous regulations.

pension the period spent in Russia, and to draw for such period the equivalent, at the privileged rate of exchange, of the Indian pay and allowances of his rank, and the half staff salary of his substantive appointment; provided that if the sterling amount be less than his leave pay under the Leave Rules for the Indian Army, then leave pay shall be allowed. He will be considered as on leave before arrival in Russia, and from the date of quitting Russia until he rejoins his appointment in India, under the conditions of Regulation 15. The period spent in Russia will not be considered as part of the two years' maximum absence from duty allowable under the Leave Rules for the Indian Army.

18. When an officer who has qualified as an interpreter in Russian under these or previous rules is on leave in England, he may, with the sanction of the Secretary of State for India on the recommendation of the Government of India, be permitted to proceed to Russia to keep up his knowledge of the language; and provided that he remains in Russia for not less than six months, on his return to London, receive travelling expenses from St. Petersburg or Moscow, as the case may be (see paragraph 13), and, if desired, he will have his leave extended by two months without prejudice to the advantages accruing under the rules relating to combined leave, if on combined leave.

Applications for this privilege should be submitted through the usual channel to the Government of India in the Department of Education by 1st December. Officers who have been duly selected but who subsequently desire to cancel their applications, or find they are for any reason unable to proceed to Russia, will be required to notify the fact without delay.

19. The half-yearly preliminary examinations in India are held in January on the third Tuesday and in June on the second Tuesday; and the names of the officers who are recommended by the Government of India for permission to proceed direct from India to Russia will be communicated to the India Office as soon as the result of the examination is known. The names of the officers who are finally selected will be communicated by the India Office to the Government of India, who will give authority to each officer to take up his residence in Russia, to which country he should proceed about May or November so as to be on the same footing as the officers of his batch who proceed from England. If more than 18 months have elapsed since an officer passed the preliminary examination he will be required to undergo a fresh examination before receiving permission to proceed to Russia.

The syllabus of the preliminary examination is given below.

Season and Crop Prospects for the week ending Saturday, 13th December 1913.

Burma.—During the week light rain fell in five districts of Upper Burma; also in the Northern Shan States and the Chin Hills. Reaping of the winter rice crop in Lower Burma and cultivation of miscellaneous crops in Upper Burma are progressing normally. The condition of standing crops is generally good. Cattle are healthy and pasturage is sufficient. The price of unhusked rice remains about normal.

Assam.—During the week slight to moderate rain fell in all the districts and caused some damage to the standing *paddy* crops but benefited the cold weather crops. Harvesting of winter rice and pressing of sugarcane are in progress. The sowing of mustard has been finished in some places and that of spring rice (*Boro*) continues in Sylhet. The outturn of transplanted winter rice and the prospects of mustard are fair. The average price of common rice has risen slightly. Cattle disease is reported from four districts. Fodder is insufficient in Sylhet and parts of Darrang.

Bengal.—During the week general rain fell all over the Province facilitating the growth of the spring crops. Harvesting of winter rice is going on briskly but its progress has been retarded in places owing to the recent rainfall. The sowing of spring crops is approaching completion. The outturn of winter rice is reported to be fairly good. The condition and prospects of spring crops are good. Cattle disease is reported from seven districts. The average price of common rice has fallen slightly as compared with that of the previous week. Agricultural loans were issued in Midnapore, Hooghly and Howrah.

Bihar and Orissa.—During the week moderate rain fell in Bihar and Chota Nagpur but there was practically no rain in Orissa. Harvesting of *paddy* and pressing of sugarcane continue. The recent rainfall has done much good to the spring crops which are doing well. The average price of common rice has remained almost stationary as compared with that of the previous week. The supply of fodder is sufficient. Cattle disease is reported from ten districts. Prospects of standing crops in the Federated States of Orissa are on the whole good.

United Provinces.—During the week light rain has fallen throughout the Provinces benefiting standing crops generally. More rain is urgently needed in all but the Himalayan and Eastern districts. Standing crops are suffering from drought except in the east of the Provinces and damage from white ants is reported from the Fatehpur district. Germination is generally good. Harvesting of autumn crops is complete. The sowing, irrigation, pressing and ploughing of land for sugarcane are in progress. Cattle disease is still reported from some districts of the Provinces. The scarcity of fodder is increasing but Government hay is being freely distributed for agricultural stock which is in fairly good condition. Water and supplies are sufficient. Prices are generally stationary with a slight upward tendency.

The report on scarcity is as follows:—Scarcity has been declared in the Bundelkhand districts from the 15th December 1913. In Jalaun one test work was opened on eighth, the second will open on the twenty-second and the third on the twenty-ninth December 1913. In Hamirpur one test work was opened on 11th December and in Banda two test works are open. The numbers employed on test works are:—Jhansi 12, Jalaun 549, Hamirpur 21 and Banda 479, total 1,040. *Takavi* is being distributed for wells and embankments. In Allahabad scarcity has not been declared but one test work is open. The attendance is 293.

Punjab.—During the week light to moderate rain has been nearly general in the Province. More is still wanted. Picking of cotton (except in the south-east) and pressing of sugarcane are in progress with yield normal to good except in a few districts where the picking of cotton is up to the average. The sowings of spring crops are normal except in the south-east where they are restricted owing to want of rain and the poor supply of canal water. The condition of standing spring crops is average to good except in the south-east where unirrigated crops are suffering from drought. *Toria* is being harvested with average yield. Cattle are generally healthy but fodder is scarce in parts of the south-east where prices of wheat are generally close to normal and those of the other grains a little above normal.

North-West Frontier Province.—During the week rain fell throughout the Province except in Dera Ismail Khan. The weather is cold and cloudy. The condition of standing crops is average. Pressing of sugarcane and harvesting of autumn crops is in progress and

the outturn is expected to be normal. The sowings of spring crops are proceeding. Cattle are in good condition. The supply of fodder and water is generally sufficient. Prices of food grains are high and tending to rise.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 12 to 25 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in a few tahsils. Fodder is sufficient.

Kashmir.—The rainfall during the week was fair in Anantnag and slight in Baramula. Cattle disease is reported in some parts and is in abatement in Anantnag. The sowings of spring crops are in progress. Prices are normal. Water and fodder are sufficient.

Rajputana.—During the week useful rain was reported in parts of Mewar, Kotah, Jhalawar, Tonk and Jaipur and slight rain in the Eastern States and Ajmer-Merwara. The weather is generally cool and clear. The sowings of spring crops are in progress but are restricted in the Eastern States and in Central Rajputana. Prospects have, however, somewhat improved in many parts of these areas owing to the recent rain. Cattle are doing well. Fodder is generally insufficient in the Eastern States and in Central Rajputana. The distribution of grass *takari* is in progress in Merwara. The supply of water is sufficient. Prices are high and are rising in a few places. The numbers employed on the test works in Merwara are ninety-three.

Central India.—During the week the rainfall was partial in Bhopal and Baghelkhand and slight in parts of Indore, Bundelkhand, Malwa and Bhopavar. The weather is clear and cool. Rain is badly wanted in Gwalior, Bhopal, Baghelkhand, Bundelkhand and in Mehidpur, the Rampura Bhanpura district and the Alampur pergunah of Indore. Harvesting of autumn crops and sowing of spring crops are in progress in some places. Operations have been stopped for want of rain in parts of Bundelkhand and the Alampur pergunah of Indore. Standing crops are bad in parts of Gwalior, Bundelkhand and in the Alampur pergunah of Indore, indifferent in Baghelkhand and fair in Bhopal. The crops have been damaged for want of rain in the Alampur pergunah of Indore and in Bundelkhand. Cattle disease prevails in parts of Gwalior, Bhopal, Baghelkhand and in the Alampur pergunah of Indore. The supply of fodder is bad in parts of Gwalior, fair in Baghelkhand, and scarce in most parts of Bundelkhand and in the Alampur pergunah of Indore. Prices are rising in Gwalior, Bhopal and in parts of Bundelkhand. They are above normal in Baghelkhand and steady elsewhere.

Central Provinces.—The weather continues to be cool and occasionally cloudy. Only Damoh had ten cents of rain during the week. Harvesting, threshing and winnowing of spring crops and picking of cotton are well advanced. The condition of spring crops is fair to good. Fodder and water are sufficient except in parts of the Vindhya districts. Cattle are faring well. *Juar* rose by two seers per rupee in Yeotmal. Variations are unimportant elsewhere.

Fendatory States.—During the week Jodhpur received thirty-five cents of rain. Standing crops are generally in good condition. *Khar* and gram fell by two seers per rupee in Chhuikhadan.

Bombay.—During the week rain fell in parts of Hyderabad and Kolhapur. Standing crops are generally good. They have been slightly damaged by rats in Palanpur and are withering in parts of the Deccan except Khandesh. Harvesting and threshing of autumn crops generally continue. The sowing of spring crops is progressing in parts of Sind, the Panch Mahals, the Konkan, Belgaum, Palanpur, Rewa Kantha and Savantvadi. Cotton picking continues in parts of Thar and Parkar, Nawabshah, Khandesh, Ahmednagar, Kathiawar and Baroda. The supply of fodder is sufficient except in parts of Poona, Sholapur, Satara and Bijapur. Agricultural stock is sufficient except in parts of Ahmednagar and Poona and is good except in Sholapur. Drinking water is adequate except in parts of Sholapur and Satara. Water for irrigation is sufficient except in Ahmednagar, Sholapur, Satara and Dharwar. Prices are generally steady. Grain stocks are sufficient. The daily average on gratuitous relief during the week in Sholapur and Satara was 286.

Hyderabad.—The rainfall during the week was widespread and somewhat injurious to the autumn crops now being harvested but beneficial to the spring crops. The rainfall was from light to fair in the Bhil, Parbhani and Osmanabad districts and very light and partial elsewhere except in Raichur, Nalgonda, Warangal and Karimnagar districts where no rain fell. The average rainfall was seventeen cents. The highest fall was two inches forty-four cents in Ashti taluk, Bhil district. The spring crops are fair to good and are being weeded. Lands for the late rice crop are being prepared and sowings are being commenced in a few parts. Fodder scarcity prevails in six districts, water scarcity in eight districts and cattle disease in two taluks. Variations in the prices of grains are insignificant. The highest price in districts is 7½ seers per rupee in Mahbubnagar and the lowest eighteen seers in Bidar.

Mysore.—The price of food grains is generally steady and markets are well supplied. Standing crops are in good condition but are withering for want of rain almost throughout the whole State. Harvesting continues with outturn poor to fair. The prospects of the season are fair to good. Cattle are healthy except in parts of Kadur and Shimoga. Water and fodder are available.

Coorg.—Agricultural prospects are good. Picking of coffee continues. Prices of food grains are high. Public health is fair. Water and fodder for cattle are sufficient.

Madras.—During the week the rainfall was fair to good in Cuddapah, Nellore, South Arcot, North Arcot, Trichinopoly, Malabar, Travancore and the Nilgiris and light or nil elsewhere. Standing crops are fair to good but require rains in some places and have been damaged by floods in parts of two districts. Harvesting of dry crops and *paddy* is proceeding with outturn fair to normal. Generally sowings of *paddy* are ending and those of dry crops are proceeding normally for the most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in a few places chiefly in the Deccan and the Circars. The supply of fodder is generally sufficient. Prices show a downward tendency.

ADMINISTRATION REPORT

OF THE

INDO-EUROPEAN TELEGRAPH DEPARTMENT

FOR

1912—1913.

CAPITAL AND REVENUE ACCOUNT.

1. *Capital*.—The net outlay of the year under this head was *minus* Rs. 2,65,263 which diminished the progressive total to the end of the year to Rs. 1,17,72,828.

The following statement shows how the above decrease is made up:—

	Increase.	Decrease.	Total.
	Rs.	Rs.	Rs.
(i) Lines	—	3,23,169	—3,23,169
(ii) Buildings	3,401	—	3,401
(iii) Apparatus and Plant	1,147	—	1,147
(iv) Suspense:—			
(a) Stores	57,400	—	57,400
(b) Other Suspense	—	4,092	—4,092
Total	61,948	3,27,261	—2,65,263

(i) *Lines*.—This represents Rs. 532 under Gulf and *minus* Rs. 3,23,701 under Persian Section. Under Gulf Section the sum of Rs. 530 was expended on account of dismantling an existing line from Buhar to Karawari, &c., and Rs. 2 for Jask wireless. There was also a charge of Rs. 1,906 under cash, and Rs. 1,689 under Stores debited against the construction of the Henjam-Bunder Abbas Telegraph Line. This charge having been included in the bill against the Persian Government has been written back and held under advances pending recovery from that Government. Under Persian Section both the sums of Rs. 3,23,647 and Rs. 54 represent credits to the Capital Account. The former is due to an adjustment on account of three quarters' rental of the Central Persia Telegraph Line, withheld by this Department since July 1907, in recoupment of Capital outlay made on behalf of the Persian Government in accordance with Article IV of the Anglo-Persian Convention of 1901, and the latter being a recovery from the Persian Government on account of labour charges incurred for the reconstruction of the line from Teheran to Ardistan.

(ii) *Buildings*.—This sum was expended in the Gulf Section on account of constructing a drain in the compound of Telegraph Buildings at Karachi.

(iii) *Apparatus and Plant*.—This represents Rs. 461 under cash and Rs. 7. 6 under Stores spent on account of the purchase of furniture and batteries in the Persian Section.

(iv) *Suspense*.—In the balance under this head there was a net increase of Rs. 53,308, made up of an increase of Rs. 57,400 under Stores, and a decrease of Rs. 4,092 under other suspense heads.

A summary of the year's transactions on Capital is given in Appendix A.

2. *Revenue*.—The earnings of the year were Rs. 20,11,947, or an increase of Rs. 34,618 as compared with those for 1911-12.

The expenditure during the year was Rs. 14,46,822 against Rs. 10,90,646 for 1911-12, or an increase of Rs. 3,56,176 over preceding year.

The net result is a profit of Rs. 5,65,125 as against Rs. 8,86,683, the profit for the year 1911-12. The fall in the profit is chiefly due to the adjustment of the accumulated rent of the Central Persia Telegraph Line referred to above.

3. The following tables show the difference under the principal sub-heads between the earnings and the expenditure* of the year under review and the preceding year; details are given in Appendix B.

GULF SECTION.

The decrease under General Charges is principally due to smaller Expenditure under "Director," "Store-keeper," "Subsidies," and "Furlough Allowances," in England. The increase under "Line Maintenance" is chiefly due to the increased Expenditure under "Assistant Superintendent" and on "Repairs to Lines." Under "Cable Maintenance" the increase is mainly due to a larger issue of stores to "Repairs to Cable" than that of the last year, and also to increased expenditure on "Repairs to Cable Steamer 'Patrick Stewart'" counterbalanced by smaller charges against "Provisions" under "Cable Steamer." The increase under "Signalling" is chiefly due to larger charges under "Travelling Allowances" and on account of "Probationary Signallers" appointed during the year.

PERSIAN SECTION.

The increases are partially due to payment of "Famine Prices Compensation Allowances" sanctioned from 1st April 1912 under the heads "General Charges," "Line Maintenance," and "Signalling." The large increase under "General Charges" is chiefly due to an adjustment in connection with the rent of the Central Persia Telegraph Line under "Capital Expenditure." Under "Line Maintenance" the excess is due to larger expenditures under "Assistant Superintendent" and "Repairs to Lines." The increase under "Signalling" is due to larger payments on account of "Travelling Allowances" and "Office Contingencies," counterbalanced by a less payment on account of General Service clerks.

* Excluding the cost of the London Office Establishment (2,509L.), which is included as part of the Establishment of the Secretary of State for India.

NET REVENUE.

4. On a total capital expenditure of Rs. 1,47,72,828 a net profit of Rs. 5,65,125 was earned during the year, which gives a dividend of Rs. 3.825 per cent., *vide* Appendix D. The dividends earned during the past five years are as follows :—

Year.	Interest on Capital. Per cent.
	Rs.
1908-1909	2.845
1909-1910	3.939
1910-1911	4.693

CIS-INDIAN JOINT PURSE.

5. Appendix C deals with the transactions in connection with this Agreement, which was entered into in 1878.

	£	s.	d.
The Department's share of the whole Purse shows increase of	1,984	0	0

Which is explained as follows:—

Increase on Indian traffic	2,356	0	0
Decrease on Trans-Indian traffic	372	0	0
	1,984	0	0

The payments by the Government of India on account of the Indian Guarantee from 1st March 1902 to 29th February 1912 are shown in Appendix C (1). The Guarantee Agreement terminated on that date.

6 *Interruptions affecting Joint Traffic.*—There were no total interruptions stopping traffic between Karachi and Bushire. The Bushire-Teheran Section was totally interrupted seven times, the interruptions extending altogether over 12 days 13 hours and 35 minutes, but on all these occasions work was carried on by the Central Persia line. Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 14 days 10 hours and 58 minutes.

7. On the Turkish route interruptions occurred between Fao and Constantinople lasting 33 days 18 hours. The working of this route continues to be unsatisfactory. The Fao-Bushire cable interrupted 9 hours 35 minutes during the year.

During the last five years the Turkish route west of Fao has been interrupted as follows :—

1908-1909.	1909-1910.	1910-1911.	1911-1912.	1912-1913.

The Department was liable to the Joint Purse for 20 days' interruptions between Constantinople and Bushire at Rs. 50 per diem.

AUSTRALASIAN MESSAGE FUND.

8. The Departmental receipts for this year show an increase of 860% on the receipts in 1889, on which the original Australasian Message Fund was based. See Appendix C (2).

TRAFFIC.

9. The following table gives the amounts paid into the Joint Purse by the Department as compared with its independent traffic revenue : —*

	For Joint Purse, etc.		Independent Revenue.	Total.
	Indian.	Trans-Indian.		
	Pes.	Pes.	Pes.	Pes.
Persian Gulf Section	1,732,691	83,829	112,110	1,928,630

Total Trances	1,978,622	93,547	156,081	2,228,250

10. Appendix E gives the number of messages and words carried under the different classes : —1, State ; 2, Commercial and Private ; 3, Press, during the past five years.

11. The average length of "private and commercial" messages was 9 words in 1912-1913 as compared with 9.31 words in the previous year. The average length, calculated from the averages of the past seven years, is 9 words.

12. *Check of Errors* — The accuracy of transmission over the lines of the Department for the past two years is shown below, and is satisfactory. The percentage of errors against words examined was as follows :—

For 1911-1912	0.213 per cent.
